Subject: Request for Site Access
TDD No. F3-8701-32
USX Fairless Hills
Fairless Hills, Pennsylvania

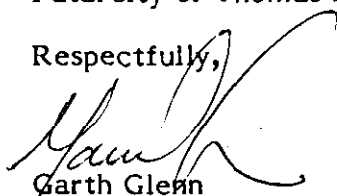

Dear Mr. O'Brien:

NUS Corporation is under Contract No. 68-01-7346 to the United States Environmental Protection Agency (EPA) as a technical and management services contractor in support of EPA's investigative activities at selected disposal sites. In this support capacity, we have received a work assignment to perform a preliminary assessment for the USX Fairless Hills site in Fairless Hills, Pennsylvania.

We request that site access be granted to NUS personnel on November 2, 1987. The purpose of the visit will be to visually inspect various areas of the property (i.e., refuse areas, etc.). Photographs may be taken at this time.

A copy of a Letter of Introduction, provided by EPA, is attached for Randy Patarcity. If you have any questions, please do not hesitate to contact Mr. Patarcity or Thomas Fromm.

Respectfully,

Garth Glenn
Regional Operations Manager,
